<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Regarding the scientific community, the manuscript holds significance. Unfortunately, it has flaws because it does not present statistical analyses that would lend it more scientific rigor and only examines a relatively small number of samples.</p> <p>The title is adequate, as is the summary, which requires English corrections.</p> <p>The organization of the manuscript and the structure seem appropriate to me; however, it requires improving the location figure with symbols, indicating the rivers and sampling sites.</p> <p>The text references tables (5-8) and mentions metal results; however, these are not provided. On the other hand, the conclusions need to be revised to reflect the data and highlight new information.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>The English text has many syntax errors.</p>	
<p>Optional/General comments</p>
