

Review Form 1.7

| | |
|--------------------------|---|
| Journal Name: | Asian Journal of Pediatric Research |
| Manuscript Number: | Ms_AJPR_112677 |
| Title of the Manuscript: | CUTANEOUS LOXOSCELISM IN A PAEDIATRIC PATIENT. CASE PRESENTATION, AND LITERATURE REVIEW |
| Type of the Article | Case report |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>Yes, the clinical case is well-described and allows dermatologists living outside the geographical regions to get acquainted with this entity.</p> <p>There was no actual literature review. Most information was between the lines. Perhaps have a separate paragraph/s on literature review (summarising) or omit from title.</p> <p>Yes</p> <p>Yes</p> <p>Please describe clearly what the mnemonic NOT RECLUISE denotes, especially if the title claims literature review. Then all relevant information should be detailed and clear</p> <p>Yes</p> <p>Please make sure all abbreviations are written in full (VS, HR, RR, m2sc, ELISA, hrs., CRP, Hb, Hcto, etc, also in tables)</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>Some minor corrections necessary:</p> <ul style="list-style-type: none"> - What do you mean by: 'due to lack of input, it was applied 2 days after admission'? Applied is usually used for topical treatments, while 'infused', 'injected', 'administered' etc for parenteral, peroral. What is lack of input? And which of the afore mentioned medications are 'it'? - When describing the case history the past tense is more suitable than the present. - Some places you call the patient/the lesion 'it'. Please rephrase. At the same time you refer to Dapsone as 'her' - You write (Introduction) 'At the fifth occurs the formation...' Do you mean fifth day? | |
| <p>Optional/General comments</p> | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| <p>Are there ethical issues in this manuscript?</p> | <p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> | |
