

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_112175
Title of the Manuscript:	Effect of PGR and cow urine on pineapple propagation through crown in soilless culture under protected condition
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, It's important A journal on vegetative propagation in soilless culture is crucial for researchers, lecturers, propagation practitioners, user, etc.</p> <p>2. It is not suitable. It is better to not abbreviate PGR. It is also necessary to add what cow urine is used for. My suggestion would be " Effect of plant growth regulators and cow urine as fertilizer...etc on Pineapple propagation through crown in soilless culture under protected condition.</p> <p>3. Not quite. After result, add conclusion. And include the method of the experiment that used, which is CRD(completely randomized Design)</p> <p>4. They are appropriate.</p> <p>5. Yes it is scientifically correct.</p> <p>6. Not enough recent reference. Preferably, at least 80 % of references should not be older than 5 years for research articles, and not older than 10 years for books.</p> <p>Introduction: Add the results of introduction research journal on plant growth regulators (IBA and NAA) and cow urine.</p> <p>Result and discussion : Include photos of research results that depict each treatment in detail. -Photo of the best treatment based on research parameters. -Photo of the lowest treatment based on research parameters.</p> <p>Statistic analysis: It is advisable to conduct further analysis, as there is significantly different parameter in the fresh root weight. Use least significant Difference (LSD).</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes is suitable for scholarly communication</p>	
<p>Optional/General comments</p>	-	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p>
