

Review Form 1.7

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_112788
Title of the Manuscript:	Effect of different salinity levels on Morphological and Yield-related traits of tomato (<i>Solanum lycopersicum</i> L.)
Type of the Article	Original Research Article

PART 1:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The article can be published if the following clarifications and observations are taken into account</p> <ol style="list-style-type: none"> It should be clarified that all the materials evaluated are considered susceptible to the salt stress factor. Thus, I believe that the best experimental strategy would be to compare susceptible materials against those that are resistant to salt stress. Are there no experimental data on the germination of seeds of the materials evaluated? There is also no information on the substrate used, frequency of irrigation, humidity and/or organic matter content. Figure 2 should be improved. The graph is very saturated and confusing The tomato materials were of determinate or indeterminate growth habit 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p>
