(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>It needs to be written in present tense. In abstract, methodology need not to be elaborated. It may be written very briefly and at least one or two lines relating to findings need to be written. Similarly, methodology also needs to be written in present or past tense rather than future tense.</p> <p>It is appropriate but needs revision. Statement of the problem and rationale of the study are to be revised and need to be comprehensive.</p> <p>Need modifications.</p> <p>Yes. Of course, need to be properly arranged.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language and grammar of the article need deep revisions.</p>	
<p>Optional/General comments</p>	<p>The paper is very relevant. The researchers can revise it with certain modification in problem statement and rationale of the study. Researcher is advised to write the recommendation more comprehensively as the topic is very significant. What methods have been applied to measure the changing perception of the people for climate change? Please mention. Researcher also need to explain how is the loss of social capita measured. Table 9 is not self-explanatory which creates difficulty for common people to understand. Hence need a simple explanation. What does HH stands for in the table, need to mention. How are socio-economic factors related to climate change is not reflected in the findings.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
