<p><b>Optional/General</b> comments</p>	<ul style="list-style-type: none"> <li>• The title should be revised, one of my suggestion as "Insect Abundance in Sites Contaminated with Effluents from Palm Oil Mill and Spent Engine Oil: Exploring the Relationship with Environmental Temperature and Relative Humidity"</li> <li>• The text appears to be well-written with no apparent spelling errors. It is clear and concise in conveying the purpose, methods, and findings of the study.</li> <li>• The text appears to be well-written with no apparent spelling errors. It effectively communicates the purpose, methods, results, and implications of the study. The inclusion of references adds credibility to the research.</li> <li>• The introduction provides a clear and comprehensive overview of the significance of microclimates in shaping insect abundance. However, it could benefit from a more concise presentation to maintain reader engagement.</li> <li>• The literature review effectively establishes the importance of temperature and relative humidity in influencing insect populations, providing relevant references to support key points.</li> <li>• In reference, follow the format of journal.</li> <li>• Consider shortening some sentences for improved readability.</li> <li>• Include specific details on sample size, potential biases, and limitations in the methods section.</li> <li>• Overall, the manuscript is well-written and addresses an important research gap. Minor revisions and clarifications will further enhance its quality and impact.</li> </ul>
