	Reviewers comment	Authors comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1.The subject is important for scientific community. The longevity of life span is increasing, in Japan on average is touching 80plus years and also crossing 100 plus.An yoga guru from India has received honor from president of India, physically at the age of 125 years. Today age is just a number. Retirement is just a phase transformation. The life before retirement is termed as life 1.0 and after life 2.0. Today, life 2.0 has increased, even more than life 1.0,hence, proper planning, counseling is required for leading a happy life 2.0,which includes selection of activities as per ones ability, passion etc, which gives good health physically and mentally. This process is termed as re attirement of retirement, in the manuscript this needs to be added, please refer my book titled" How to lead reattire your retirement and embrace life 2.0". Today, this subject is therefore most important and it should begin in life 1.0 by proper counsel ling , Individuals SWOT analysis etc all are mentioned in my practicing book.</p> <p>2.The title is not suitable. It can be" Life 2.0 Planning after retirement for..... In ghana"</p> <p>3.No, please refer1,</p> <p>4.No, needs to be re written, adding pscological, mental health etc problems. How to plan, when to plan andvhow to plan. Even statistics on these points needs to be added and subtopics to be prepared accordingly, to justify the subect.</p> <p>5.Yes, but requires proper presentation. Refer 1.</p> <p>6.References of persons, cases, statistics, doctors revelation, needs to be added. My book can be referred for further guidance.</p> <p>The topic is scientific, most important for the globe in planning and leading life 2.0,the paper needs to be presented with facts, figures and proper statistics.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, with changes suggested in presentation, above.</p>	
<p>Optional/General comments</p>	<p>Title of subject is most important globally today for practising and leading happy life after retirement,with proper planning of activities.However, proper presentation is required.</p>
