The title also reflected the whole work. However, the manuscript is not meet the word "research". It's more look like scientific report. Authors should revised to meet basic standard of research if he or she want to publish as a research paper. In abstract, don't use the word "spatio-temporal", because authors only explained on time and there is no spatial analysis in the study. In introduction part, more literature review are need for the study such as: background of this study, objective of study, significant of research and similar previous studies explanation. In result section, this section should contain only data and method explanation. Please move the study area explanation to introduction part. There is no any discussion in result even author title as discussion. Please add some discussion overview of result with how their influence to regional climate.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>English writing is fair. But some grammar mistake should be revised.</p>	
<p>Optional/General comments</p>	<p>Figure font size should be same with manuscript type font size. Please revised. Please put sub-figure number in figures such as 1.a , 2.b.</p>
