If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, the manuscript is very important for scientific community because insecticides are not always economically viable due to their negative effect on non-target organisms, especially on parasitoids and other beneficial insects that help in reducing the population buildup of pests. The parasitoids are highly susceptible to broad-spectrum insecticides and can quickly reduce the infestation of the target pest before reaching the economic threshold</p> <p>Yes, the title of this article is suitable.</p> <p>Yes, the abstract of this article comprehensive to some extent.</p> <p>Yes, the subsections and structure of the manuscript appropriate to some extent after modification.</p> <p>Yes, I think the manuscript is scientifically correct after modification of some words which it writes by red colour.</p> <p>Yes, the references are sufficient but not recent. So, the references need to recent it up to 2023 year because the references contain one recent reference only, Lian-Cheng <i>et al.</i>, 2022.</p> <p>No, Thanks, these comments are enough.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, language/English quality of the article is very good and suitable for scholarly communications.</p>
