PART 1: ReviewComments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Manuscript is nicely written with an attempt to see incidence rate of HCV seropositivity in HIV reactive people of an African region. Just needs minor revisions.</p> <p>I think title should be "HSV-1/2 Seronegativity and HCV Seropositivity in people living with HIV presenting at a tertiary care teaching hospital in Nigeria"</p> <p>Yes it's ok.</p> <p>Yes seems ok.</p> <p>Yes seems ok.</p> <p>References are not according to required format. Should start be with numbering.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes seems ok.</p>	
<p>Optional/General comments</p>	<p>1. The author did not mention in the manuscript which medical test was used firstly for diagnosing patients for HIV. Method of testing and test details (company name, kits name) should be provided.</p> <p>2. Author did not specify the age of considering a person MINOR who were excluded from study.</p> <p>3. References are not numbered and are not shown as superscripts or in bracketed form in the main manuscript.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
