

## Review Form 1.7

Journal Name:	<a href="#">International Journal of Research and Reports in Hematology</a>
Manuscript Number:	Ms_IJR2H_112943
Title of the Manuscript:	The Effect of Anisopus mannii on blood glucose levels of normal and diabetic albino rats
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>The manuscript titled "The Effect of Anisopus mannii on blood glucose levels of normal and diabetic albino rats" appears to be of potential significance to the scientific community, particularly within the field of diabetes research. Investigating the impact of Anisopus mannii on blood glucose levels in both normal and diabetic albino rats suggests a focus on potential therapeutic effects to diabetes management. The findings presented in the manuscript may contribute valuable insights into the understanding of the physiological effects of Anisopus mannii and its potential role in modulating blood glucose levels, which could have implications for the development of new treatments or interventions for diabetes.</p> <p><b>Suitable (or change as</b> The Effect of Anisopus mannii on blood glucose levels of normal and diabetic albino rats")  <b>Yes</b>  <b>Satisfactory</b>  <b>Yes</b>  <b>yes</b></p> <p>Researchers and healthcare professionals may find this work relevant for further exploration and application in the context of diabetes-related studies.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p><b>Satisfactory</b></p>	
<p><b>Optional/General</b> comments</p>	<p>Can be accepted and published</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
