

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_82314
Title of the Manuscript:	Preliminary Phytochemical, Antioxidative and Antibacterial Screening of Selected Medicinal Plants for Possible use in the Treatment of Bacterial Diseases.
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	13 plants were evaluated, 5 of them showed antibacterial effect. Is it better and more focus on these 5 plants on this manuscript and not mention others? Could be better to write a separate report for all 13 plants on phytochemicals and antioxidants contents?	5 of the selected plants were choose because they showed the best result while evaluating for the presence of some phytochemical constituents. Hence, I tailored further experiments of the 5 plants. Ok. I will be writing a review paper soon, where I will write a separate and holistic phytochemical report for all the 13 plants. The paper is already becoming voluminous.
Optional/General comments	This research provide valuable information on Indian native natural plants chemical contents and lay foundation for further exploration of medicinal use.	Yes. That's true

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
