<b>Compulsory</b> REVISION comments  1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)  3. <b>Is the abstract of the article comprehensive?</b>  4. <b>Are subsections and structure of the manuscript appropriate?</b>  5. <b>Do you think the manuscript is scientifically correct?</b>  6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	  1. I strongly agree that this text is very important and interesting to be researched scientifically to be able to provide attention and awareness of the importance of children's education at the basic level to be prioritized by the state to build resources for the golden age as a foundation for children to make it the basis of sustainable education starting from basic education. Therefore, there needs to be harmony between the government and society to support and prepare infrastructure and resources that meet good standards.  2. I suggest the title is: " Analysis of education policy primary school of Tuensang District, Nagaland, North East India"  3. The abstract is incomplete, especially the problem statement is less visible and does not describe the complete research results  4. The subsections and structure of the manuscript are in accordance with the rules of scientific writing  5. References are still lacking, especially related to basic education theory and related research results	  Dear Reviewer,  The authors would want to give our gratitude for you valuable comments and feedback.  In relation to the research title, the authors would want to know whether the title can be  1. Analysis of RTE Education Policy in Elementary Schools of Tuensang District, Nagaland, North East India.  2. Right to Education Act: Examining Elementary Schools of Tuensang District, Nagaland, Northeast India.  There are multiple education policies that have been implemented by the Govt. of India at present. Hence, the authors thought that adding RTE OR Right to Education Act will give more specification on what education policy is studied particularly for the viewers of the article.  The authors have also work on the abstract and the reference section.
<b>Minor</b> REVISION comments  1. <b>Is language/English quality of the article suitable for scholarly communications?</b>		
<b>Optional/General</b> comments
