

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_112891
Title of the Manuscript:	Comparative Evaluation of the Physico-chemical Characterization of Native and Modified Starches from Jackfruit, Corn and Cassava as Potential Additives in Drilling Fluid.
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>Comments to authors: The proposed manuscript is about modified starches of Jackfruit and their respective Physicochemical properties. Thus, it was presented the characterization and discussion related. Please consider the following comments and suggestions: i) In the Abstract it should be explained what is the targeted objective of the starch modifications applied. ii) Please check the beginning of the text of the Introduction stated as " The discovery of petroleum a... ". Rewrite the Introduction adding information related with the theme and topics related with the proposed goals. In the introduction it should be Highlighted the innovation and interest of the proposed Research work. iii) About the section of Results; it is noted missing data before show tables and Bars Plots. iv) moreover please to re-organize order of subsections; it is suggested first to show TEM characterization and all data related. v) about the IR plots of IR recording; please check order of apparition of the graphs within the figure. Add legends. vi) in the conclusions it is suggested to add perspectives.</p>
