<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes 2. Yes 3. Yes 4. Yes 5. Yes 6. No</p> <p>I have the following a few suggestions:</p> <p>A. The impact on community should also include: The eye camps facilitate the conduction of surveys, the collection of feedback, and the expansion of research opportunities. This may be highlighted in the conclusion as well</p> <p>B. The reference 8 should start as reference 1.</p> <p>C. All the references in the subheadings should be moved to the text as it is misleading for the general reader.</p> <p>D. The references 2 and 3 are not suitable as scientific way of referencing and need to be replaced.</p> <p>E. Though a mini review, this manuscript needs to have more updated and recent references. The author may choose some from the list I have inserted in the general comments, below.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes
