

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_113643
Title of the Manuscript:	SUSTAINABLE MANAGEMENT OF LAND, WATER AND CROP IN HILLS OF NORTH EAST INDIA
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> The manuscript titled "Sustainable Management of Land, Water, and Crop in Hills of North East India" is incredibly important for the scientific community. It provides a thorough analysis of agricultural practices in the North-Eastern hill region of India, tackling critical issues like soil erosion and water conservation. By examining various farming systems and suggesting technological interventions, it offers practical solutions for promoting sustainable agriculture in the region. This manuscript is essential reading for researchers, policymakers, and practitioners aiming to enhance agricultural productivity while preserving the environment. The title effectively captures the main focus of the manuscript and is suitable for conveying the content of the research. However, if a more concise title is desired, an alternative could be "Promoting Sustainable Agriculture in North-Eastern Indian Hills: A Comprehensive Study". Yes, the abstract of the article provides a comprehensive overview of the research conducted, including the objectives, methodology, key findings, and implications. It effectively summarizes the main points of the manuscript, enabling readers to grasp the essence of the study without delving into the full text. Yes Yes Yes, however it is suggested additional recent references could be included to strengthen the literature review and provide a more comprehensive understanding of the topic. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>Yes, the language and English quality of the article are appropriate for scholarly communication, ensuring clarity and effectiveness in conveying research findings to fellow academics and researchers.</p>	
<p>Optional/General comments</p>	<p>Adding images or diagrams to the article could greatly enhance its visual appeal and help illustrate complex concepts or data, making it more accessible to readers. Visual aids such as graphs, charts, or schematic diagrams can complement the text and improve understanding, especially for readers who are more visually oriented. Incorporating relevant images can also make the article more engaging and memorable, contributing to its overall impact in the scientific community.</p>
