

Review Form 1.7

Journal Name:	Journal of Advances in Microbiology
Manuscript Number:	Ms_JAMB_103222
Title of the Manuscript:	EFFECT OF HARVESTING STAGE, DRYING METHOD AND PACKAGING OF COWPEA LEAVES ON MICROBIAL CONTAMINATION
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes as idea, but its need more experiments and lacks accuracy</p> <p>Yes, but replace stage by time</p> <p>Yes, but need to curtailment</p> <p>No</p> <p>No</p> <p>Yes</p> <p>The manuscript lacked to scientific experiments, moisture measurement, explain the temp. degree of each drying use, the dilution methods without reference and it's not understood, my values have no significant differences, the microorganism not diagnosis, in general the paper is too long.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>There are repeating for some paragraph, the paper is too long, sufficient foe scientific experiments, what dilution is used for spreads in media , why media was incubation at 60 degree while the optimum temp for bacteria is 37 and for fungi 28?</p>
