<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, this study contributes to identify gaps in knowledge, vaccination coverage and effectiveness in low-income country and critical population group. In addition, this study help to reduce the burden of HBV-related liver disease, policymakers, and improve overall public health.</p> <p>2. The current title appears to be fine, but I would recommend using this alternative title for improved: "Evaluation of awareness and knowledge of Hepatitis B Virus (HBV) infection and vaccination coverage among adults attending an eye clinic in Anambra State, Nigeria".</p> <p>3. Major revision required.</p> <p>4. Yes, overall this correct.</p> <p>5. Not exactly. All part of manuscript needed to major revision.</p> <p>6. I suggested that adding and updating references while concentrating on the main points of the discovery would be more beneficial.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>I recommended to utilize the editorial services offered by reputable journals like Springer to enhance the sentence structure and overall quality of writing and literature.</p>	
<p>Optional/General comments</p>	<p>The tables and figures in the result section were simple and disorganized, therefore a major revision is needed for this section.</p>
