Abstract

1. In Abstract Results need to be added, and reduce material and method matter from abstract
2. In Abstract-application of T4-FYM @ 2.5 t ha⁻¹ + Rhizobium + PSB gave significantly higher number of root nodules per plant, fresh and dry weight of root nodules, where is your value and ur tablesignificantly?

Introduction

1. New references need to add up to 2023/2024

RESULTS AND DISCUSSION

Here need to add

1).3.1 Effect of organic manures and bio-fertilizer on plant population

3.2 Effect organic manures and bio-fertilizer on growth parameters

Likewise, for all parameters

2) . Add correlation table for explaining signification or non-signification in abstract, results and discussion and conclusion

3). Table: 1 Need to be adjusted

CONCLUSION:

In Conclusion add 2 to 3 sentence more with major results/ or significant values.
