

Editor's Comment:

Manuscript for the publication entitled "Constraints Faced By Farmers In Supply Chain Management Of Onion In Kurnool District Of Andhra Pradesh" Such kind of farmer's issues need to be solved on urgent basis. This manuscript may help in making policy for onion producers. Readers will be benefited with such an information research article. This should be published with utmost priority. My concern is about the reference citation style that the author has mentioned in the text . Kindly check it critically if it is as per journal style or not.
