

## Review Form 1.7

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_113358
Title of the Manuscript:	Increasing Household Food Security through Resource Balancing among Tobacco Producers
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. The article is very important for the scientific community. It appears to be an original work.</p> <p>2. An addition should be made to the title of the article.</p> <p>3. The summary of the article is not comprehensive enough.</p> <p>4. The subsections and structure of the article are appropriate.</p> <p>5. The article can be considered scientifically correct.</p> <p>6. References are sufficient.</p> <p>An addition should be made to the title of the study in accordance with the scope of the study. Case of Kiryandongo region (Uganda).</p> <p>In the abstract section, brief information about the method used in the study should be given. Kiryandongo district and Uganda should be used in keywords instead of Data Envelopment Analysis and Tobit regression model.</p> <p>In the Sampling and Sample size section, it should be stated whether the 200 farmers surveyed</p> $n = \frac{Z^2 P(1 - P)}{e^2}$ <p>were found according to formula</p> <p>The areas I painted yellow should be reviewed.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>		
<p><b>Optional/General</b> comments</p>
