

Review Form 1.7

Journal Name:	Journal of Complementary and Alternative Medical Research
Manuscript Number:	Ms_JOCAMR_112641
Title of the Manuscript:	WOUND HEALING POTENTIAL OF DICHLOROMETHANE LEAVE EXTRACT OF Heterotis rotundifolia LEAVES IN FEMALE WISTAR RATS
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, Manuscript is important for scientific community. It talks about the use of Heterotis Rotundifolia leaves for wound healing in female rats. Authors have performed an experiment to prove how this plant has medicinal properties that are comparatively better than the synthetic drug present in the market which they have used as a reference.</p> <p>Yes, title is suitable</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language quality is good and easily understandable.</p>	
<p>Optional/General comments</p>	<p>The manuscript is good. The authors have shown the medicinal use of the plant by conducting experiment on the female rats. However, only one set of experiment has been done. It would have been better and more acceptable if additional/orthogonal experiments would have been performed to prove the wound healing properties of Heterotis rotundifolia.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
