

Review Form 1.7

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_113865
Title of the Manuscript:	DESIGN AND OPTIMIZATION OF FAST-DISSOLVING ORAL DRUG DELIVERY SYSTEM (ODDS) OF VALPROIC ACID (VLA) LOADED AS ANTI-EPILEPTIC CATEGORY DRUG WITH UTILIZATION OF DESIGN OF EXPERIMENTS (DoE)
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes The rapid disintegration of dosage forms plays a pivotal role in facilitating drug absorption through the oral mucosa. In the management of epileptic conditions, there is a critical need for immediate drug release.</p> <p>2. Title is not appropriate. Modify title</p> <p>3. Yes</p> <p>4. Structure of manuscript is not in flow. For example result and discussion must me in same flow with material and methods . numbering sequence is also different</p> <p>5. Yes. [5.8 Release Kinetics Study—not needed as this this study is not relevant for fast dissolving drug delivery system]</p> <p>6. Yes</p> <p>In table 3 and 4 coded value for the level of independent variable are not matching. For eg. +1 must be 100 -1 must be 50and so so 0 must be 75 . R1 and R2 are not proper designation for factors. R for responses for dependent variables, accordingly change table 4 and 5 . Firmness is not official term use the term hardness only</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Proper	
<p>Optional/General comments</p>	Plase check flow of writing
