

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_112878
Title of the Manuscript:	IMPACT OF ORGANIC MANURES AND INORGANIC FERTILIZERS ON GROWTH, YIELD AND IT'S ATTRIBUTING TRAITS OF CHILLI (Capsicum annum L.)
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes in context of organic farming and high price of fertilizer inputs.</p> <p>No. in the title the word impact can be removed and but yield data should be included in he manuscript as per title</p> <p>Should be revised.</p> <p>Yes</p> <p>Though scientifically correct some sections in the manuscript should be rewritten with proper sentences to make it meaningful</p> <p>Some latest references can be added.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English language needs to be revised to make it meaningful.</p>	
<p>Optional/General comments</p>	<p>The author has mentioned yield in the manuscript title but the same data is missing in the table as well as in the manuscript. The data provided in the table is not sufficient to conclude the experiment. Yield data should be included and it should be corelated to the yield parameters. Many paragraphs need to be rewritten to make it meaningful.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
