<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes The paper is considered important in the research community, disaster management, and post-disaster rehabilitation, but after it was carefully reformulated to be comprehensive in various areas of disasters, and to try to reduce the severity of disasters and confront war disasters by various means, and to be circulated to international communities.</p> <p>It is preferable to remove the word "commentary" from the title, as it has no importance in the title</p> <p>No, it is not comprehensive. The type of disasters was not specified, not even countries that suffered from natural or artificial disasters due to wars, for example, or even social ones, as happened in Covid-19.</p> <p>Needs to be rephrased</p> <p>little bit</p> <p>Never is enough</p> <p>Sources must be diversified, using new sources, and trying to link the study to the new industrial revolution in the world of technology, modern project management, and artificial intelligence through these sources. like Waheeb, Rasha A., and Bjørn S. Andersen. "Causes of problems in post-disaster emergency re-construction projects—Iraq as a case study." Public Works Management & Policy 27.1 (2022): 61-97. Waheeb, Rasha A., Bjørn S. Andersen, and Rafea AL Suhili. "Using ANN in emergency reconstruction projects post disaster." International Journal of Engineering Business Management 12 (2020): 1847979020967835.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Taking care of the language that is understandable and simplified for readers, as well as formatting and grammar.</p>	
<p>Optional/General comments</p>
