(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes. ICT competency is people-centric and therefore it is imperative for teachers to be competent in ICT as 21st century students are tech-savvy at de fault. Teachers are expected to possess ICT Skills in addition to domain knowledge.</p> <p>Yes, suitable.</p> <p>It should address the need for ICT Competency and how gender disparities are noticed. It should therefore be written to capture the main thesis of the study. It sounds as it were a standalone writing independent of the main manuscript.</p> <p>No</p> <p>Reference entries are not referred to in the study. There is no entry on ICT competency.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>To some extent</p>	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> H2 & H3 are unrelated to the objective and scope of the study. There is no section on research methodology. There is no clue to how, where and when the study was carried out. There is no section on Discussion of the Results. There is no section on introduction to the study. There is no section on the review of the literature. There is no discussion of theoretical framework on what constitutes ICT Competency.
