EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1.write materials and methods precise with actual procedure</p> <p>2. mention place of sample collection in chanddel district</p> <p>3.Results and discussion include experimental findings hence there should be no separate subheading</p> <p>4. It seems like review article not research paper, hence write to the point whatever is findings.</p> <p>5. Discussion part is too short elaborate it and add more references as per the article.</p> <p>6.Statistical analysis is incomplete, indicate significant and not.</p>	<ul style="list-style-type: none">- The materials and methods has been rectified- place of soil samples collected has been mention- Experimental findings included in Result and discussions- Findings and references included- discussion elaborated
