

Review Form 1.7

Journal Name:	Journal of Advances in Microbiology
Manuscript Number:	Ms_JAMB_98032
Title of the Manuscript:	Design, Synthesis and Antibacterial activity of some 3-methyl-2-oxo-1,2-dihydroquinoxaline-6-sulfonohydrazone derivatives.
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. This study aims to synthesize 06 derivatives and exam their Antibacterial activity on 24 bacterial strains. It is significant to invent some new compounds in antibacterial</p> <p>2. I think it should be deleted "design"</p> <p>3. the abstract should rewrite or delete "The study concluded that the prepared sulfa quinoxaline hydrazone derivatives were observed to exhibit antibacterial activities against both Gram-positive and Gram-negative bacterial strains used for this study." This sentence's content was repeated.</p> <p>4. Yes</p> <p>5. yes</p> <p>6. The references are old, just 02 from 2021</p> <p>Are figures in supporting information? If not, please redraw them for clarity.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	I cannot assess English	
<p>Optional/General comments</p>	The authors did many works in this manuscript, and this research supplied some new choices of antibacterial compounds. But for improving the manuscript, authors should discuss results and give your insights.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
