Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, it is interesting to look into quality of life in this group of patient</p> <p>It will be easier to comment if the manuscript has running line numbers</p> <p>References are outdated ranging from 1998-2016</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>There are certain English used which are too casual, example the term "shame" may not be appropriate in a scientific paper The introduction is fairly judgemental and strong prejudice against infertile women. As in this modern era, having a child has become a choice rather than an essential. Suggest author to use more subtle and less judgemental words. Avoid usage of "the least joy and happiness of almost every married woman is to have a child" kind of sentences.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
