<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>This manuscript presents a comprehensive and extensive overview of the advantages, disadvantages, obstacles and challenges in the application of emerging agricultural technologies. Although it relies on already published works, the article represents a good sublimation of well-known scientific and practical knowledge.</p> <p>Yes, the title of the article matches its content.</p> <p>Yes, the abstract of the article is comprehensive enough.</p> <p>Yes, the paper is well structured, with the fact that I would add a section on the used research methodology, that is, on Material and Methods Used in the Research. This is actually a kind of meta data analysis.</p> <p>Yes, the article in a correctly manner presents and sublimates well-known scientific facts and scientific truths.</p> <p>Yes, most of the references used are from the last 10 years, but the list of references used should be rearranged as they do not appear in the order in which they appear in the manuscript text.</p> <p>Since the article mentions e-commerce platforms in India, it might not be a bad idea to add a section on the state of adoption of these emerging agricultural technologies in that country.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	<p>The article presents a fairly correct meta-analysis of commonly known facts about emerging agricultural technologies that encourage sustainable agriculture and rural development.</p> <p>It is necessary to format the paper in accordance with the propositions of the Journal.</p>
