

Review Form 1.7

Journal Name:	Asian Journal of Biotechnology and Genetic Engineering
Manuscript Number:	Ms_AJBGE_111122
Title of the Manuscript:	Effect of G0 minitubers size and planting distance on G1 Solanum tuberosum L. tubers production in Lebanon
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>No, its so simple and not attractive (dear, Please use a more attractive title!!!)</p> <p>It could have been better!!!</p> <p>Almost Yes!</p> <p>Yes</p> <p>NO, References need to be changed (delete the old ones) and should be included in the text, avoid using numbers in the reference!!!</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>1. The article is written very simply and as if the texts were copied exactly from the author's thesis!!!</p> <p>2. In the materials and methods section, (which is the most important part of the article!!!) The author did not explain enough about the experiment,</p> <p>3. why it was analyzed by Duncan's method and was not analysed by LSD (Duncan is outdated!!!)</p> <p>4. Test factors are not clear</p> <p>5. Why is the image used?</p> <p>6. Please use better Fig and tables</p> <p>7. Regarding the attributes you measured, you should explain the method of doing each attribute For example (minituber weight, length, width and number,... How did you measure?!!! You should explain each measurement method in the Materials and Methods section!!!)</p> <p>8. dear friend, Due to the importance of the subject The conclusion part is not enough, please explain a little more</p>
