

Editor's Comment:

The manuscript entitled "NUTRITIONAL & ANTIMICROBIAL ANALYSIS OF DEVELOPED EDIBLE BASKET USING NORI SHEET"

submitted from India reviewed by two reviewers and requested some minor revisions (Overall marks were 8,5 and 7,8). The authors revised the manuscript according to the comments of the reviewers. Specifically Sargol Mazraedoost from Korea made very valuable contribution to improve the manuscript.

I would like to inform that the manuscript can be accepted for publication in the EJNFS.
