

Review Form 1.7

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_109532
Title of the Manuscript:	STUDY ON PREVALENCE OF ONE HUMPED CAMEL MANGE AND ITS ASSOCIATED RISK FACTORS IN SELECTED KEBELES OF KEBRIBEYAH DISTRICT OF FAFAN ZONE, SOMALI REGIONAL STATE, ETHIOPIA.
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The overall content of the manuscript is imperative and provide baseline information for professionals and policy makers to establish an applicable and feasible control and prevention measures of the infestation on the study animals.</p> <p>Omit the words STUDY ON, and write as PREVALENCE OF ONE HUMPED CAMEL MANGE AND ITS ASSOCIATED RISK FACTORS IN SELECTED KEBELES OF KEBRIBEYAH DISTRICT OF FAFAN ZONE, SOMALI REGIONAL STATE, ETHIOPIA.</p> <p>Avoid unusual abbreviation under the abstract. Please write the full name for PA Please rephrase the last four lines of the abstract and correct them grammatically.</p> <p>.....This study indicates (indicated) that camel populations in Kebribeyah district had large amount of mange mites (high level of mange mite infestation) which could hamper health and production status of the camels. Therefore, more emphasis should be given to improve the management system, further studies and control measures should be conducted to shrink (reduce or mitigate or minimize) the effect of mange mite infestation on camel husbandry (in one humped camels. #because your study was on one humped camels).</p> <p>Please see the attached manuscript and specific comments are given in highlights, and comment boxes.</p> <p>After the inclusion of all the comments and possible amendments, the manuscript will come to the milieu of scientific correctness. Scientific justification or rationale should be indicated under the introduction. (why this study was conducted?)</p> <p>References should be first put into the End-Note Library or other similar software and then choose the appropriate style and format according to the Authors' Guideline. Or Make all the same format manually point-by-point.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>If the grammar issues and punctuations are corrected, it will be suitable to the languages of the scientific milieu.</p>	
<p>Optional/General comments</p>	<p>2.4 Study method and design</p> <p>A cross-sectional study was conducted to determine the prevalence and associated risk factors responsible for the occurrence of mange mite infestation in one humped camels of the study area.</p>	

Review Form 1.7

	<p>2.5 Data analysis Please see what does chi squared test do in statistics? What about odds ratio (OR)</p> <p>Result: Please merge all tables in one</p> <p>Table 1 to 5 can be one table. And put the Odds ration and the 95% confidence interval for the variables which are statistically significant.</p>
