Bekasi is highly urbanized area &amp; large suburbun to Jakarta with area of 491.85 sq ml. It is highly historical &amp; presently known for its industries &amp; growing residential areas. Hence studying its financial performance is important to the scientific community. The title is apt but improvement is needed in the abstract which is not comprehensive. The author can include key content areas of present research. I suggest adding 2 or 3 more keywords &amp; replacing the present with more meaningful words. Introduction is good but literature reviews are insufficient. More explanation is needed for the research methodology adopted. References are sufficient.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language is O.K. Can be revised if time permits.</p>
