

**Editor's Comment:**

Absolutely the research is important for the scientific community, the title of the article suitable Study on Red Cell Distribution Width in Children with Congenital Heart Disease Associated- Pulmonary Arterial Hypertension. The research is scientifically is correct. The references total is 21 , but most is old ,tobe add 1-2 newest also should be added directly related to RDW

graphs, tables and images is ok ,but Can be add some curve graphs is better Minor RevisionAccepted.
