

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Research in Cardiovascular Diseases</b>
Manuscript Number:	<b>Ms_AJRCD_111460</b>
Title of the Manuscript:	<b>Effect of Ethanolic Extract of Traditional Herbal Tea (Aju-Mbaise) on Lipid Profile and some Liver Enzymes in Dyslipidaemic Female Wistar Rats</b>
Type of the Article	<b>Original Research Article</b>

## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The study is relevant and important for the society</p> <p>Suitable</p> <p>Ok</p> <p>Good</p> <ul style="list-style-type: none"> <li>The Benefit/Risk Ratio of Ethanolic Extract of Aju Mbaise could be clearly mentioned.</li> <li>Comparing group 5 &amp; group 6 in decreasing the lipid parameters, What is the reason for the better results in group 5 compared to group 6. The variation and its significance could be mentioned in the results.</li> <li>Kindly reason out for increasing AST, ALT in group 4 (150 mg/kg EEAM) compared to group 5 (300 mg/kg EEAM). If herbal tea is having hepatotoxic effect why it is showing lesser in high dosage in group 5.</li> </ul> <p>Fig 1: Effects of Ethanolic Extract of Aju Mbaise Herbs (EEAM) administration on percentage change in body weights of female albino Wistar Rats</p> <ul style="list-style-type: none"> <li>The pictorial representation of changes in the body weight could be clearer.</li> <li>Body weight in grams could be mentioned in the graph (in the Y axis).</li> </ul> <p>Sufficient and relevant</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	yes	
<p><b>Optional/General</b> comments</p>		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
