<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, as it systematically address a problem</p> <p>It is suitable Abstract is comprehensive, sub-sections and structure of manuscript are appropriate. However, the referencing style needs to be harmonized. I suggest the APA referencing style should be adhered to. Furthermore, new challenges different from what literature review showed as factors militating against adoption were empirically revealed by the study</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Average	
<p>Optional/General comments</p>	Attention to be paid to punctuation marks and a little aspect of concord. However, the work has originality and as such i recommend it for publication.
