| <p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b><br/>(Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b><br/>(If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <p>1- The article is important for the scientific community as it addresses a crucial issue in education research, promotes student-centered learning, provides practical solutions for improving education quality, and demonstrates the relevance of academic research to real-world educational issues.</p> <p>2- The title encapsulates the key themes and contributions of the paper.</p> <p>3- It provides a detailed overview of the research, including the background, purpose, literature review, curriculum situation, high-impact teaching model design, implementation, learning goals, study assurance, and learning assessment.</p> <p>4- The paper is well-organized and structured, with clear headings and subheadings that effectively guide the reader through the content.</p> <p>5- The paper includes a literature review, a clear research question, a detailed methodology, and a comprehensive analysis of the results. The research findings are also supported by relevant literature and data. Therefore, it can be concluded that the manuscript is scientifically correct.</p> <p>6- The paper could be further strengthened by including more recent references, additional references on high-impact teaching practices, and more references on student engagement and active learning.</p> |                                                                                                                                                                                      |
| <p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | <p>The article is well-written, with clear explanations and descriptions of the research, methods, and findings. The language used is academic and appropriate for a scholarly audience, and the paper is free of grammatical errors and clear in its structure.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                      |
| <p><b>Optional/General</b> comments</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <p>The manuscript is well-written and structured, but there are some gaps that could be addressed to further strengthen the research. Including more recent references, additional references on high-impact teaching practices and student engagement, and more detailed information on the limitations of the study and potential avenues for future research can provide a more comprehensive understanding of the research topic and its implications for education.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                      |
