

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_111395
Title of the Manuscript:	Dry matter accumulation in different parts of the pigeonpea as influenced by growing environment
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This study would be more important for science, if authors more explain reasons of increasing and decreasing trends of TDMP, from S₂ to S₇. If possible, they should explain more about differences among genotypes.</p> <p>This is suitable.</p> <p>If authors explain more, abstract will be changed.</p> <p>This is appropriate.</p> <p>If LAI is important to TDMP, authors should add data of leaf measurements.</p> <p>Authors should use references for photosynthetic activity and productivity of annuals.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>Reference number and citing number should be checked, carefully. Author name should be deleted, throughout main text.</p> <p>English is suitable.</p>	
<p>Optional/General comments</p>	<p>Authors need to explain reasons of TDMP for annuals, carefully (LAI or photosynthetic activity).</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
