However, major revision need to be addressed to assure the quality of academic writing and article publication.</p> <p>Overall, the idea of the paper is sufficient and interesting to be reviewed. But please solve this issue:</p> <ol style="list-style-type: none"> 1. The aim of this paper is not consistently written in the abstract. It is contradict with the aim stated in the last paragraph of Introduction. Due to this lack; the content and direction of this paper in unclear. 2. The methodology of reviewing procedure is not included. This part is very crucial and fundamental/basic structure of academic journal writing. If I may suggest, this paper can use a combination of bibliometric analysis and systematic literature review. 3. Please review other published paper in this journal to learn the writing structure. Typically, a manuscript must have these: Abstract, Introduction, Methodology, Results and discussion, and Conclusion. <p>All the best!</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Sometimes very hard to understand.</p>	
<p>Optional/General comments</p>
