

Review Form 1.7

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_111749
Title of the Manuscript:	Measures of Urbanisation and Interrelationship between Factors of Urbanisation in Tiruchirapalli District – A SEM Analysis
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Based on the provided details, the manuscript appears to be potentially important for the scientific community due to its localized focus on urbanization in the Tiruchirapalli district, rigorous analytical methods like PCA and SEM, and the broader implications it might have for understanding urbanization dynamics. However, a thorough review by experts is necessary to fully gauge its significance.</p> <p>2. Yes, Suitable.</p> <p>3. Yes</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. Need to add more references.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The article contains valuable insights on urbanization but requires refinement for scholarly communication. Key areas for improvement include:</p> <ul style="list-style-type: none"> Consistency in terminology. (Ensure that terms and abbreviations are consistently used throughout the article. For instance, "Principal Component Analysis (PCA)" is explained in detail once but later referred to as "PCA" without a preceding full form.) Simplifying lengthy sentences for clarity. Clear definitions for technical terms. 	
<p>Optional/General comments</p>	No any	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
