<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. Research into the causes of urbanization is important to find the right solution so that the benefits can be felt at the lowest level. Care is needed in choosing measurement methods and factors that influence the causes of urbanization.</p> <p>2. Repetitive use of the word "urbanization" lends inefficiency to the title. I would suggest a simple change: <b>Measures of Urbanisation and Interrelationship between Factors Thereof in Tiruchirapalli District – a SEM Analysis</b></p> <p>3. Yes, it is.</p> <p>4. The Author/s must follow the formatting template outlined in the document available from the Journal ACRI website. Things to pay attention to include the font type, letter size, table display formatting and title, as well as figure title placement.</p> <p>5. Yes, I do.</p> <p>6. The formatting of the citations does not match the template. The amount of references is not sufficient and some are more than 5 years old.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>There are some inconsistencies, mainly in mixing British and American spelling (such as in interchangeably using both "urbanisation" and "urbanization"), but other than that, the grammatical quality and word choice are good and suitable for scholarly communications.</p>	
<p><b>Optional/General</b> comments</p>	<p>This article is worthy of publication because it provides a valuable perspective in determining factors causing urbanization in the district of Tiruchirapalli.</p>
