<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> The title of the research is appropriate. The abstract of the article is complete, featuring the introduction, the research methods and steps, the research results and the research implications. The structure of the manuscript is scientifically correct, where the research steps contained in the research methodology section have been applied and described in the results and discussion. The manuscript of the article is scientifically correct. The research methodology used is in accordance with the results and discussion of the research. The results and discussion of the research are also discussed well enough to be understood. The references used in the article are good enough and qualified. The latest references are also sufficient. Even if there are old references, it is a reference to the grand theory and it is not a problem. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	The English used in this article is understandable and in accordance with scientific rules, and is acceptable to academics.	
<p>Optional/General comments</p>
