

Review Form 1.7

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_111068
Title of the Manuscript:	Synthesis and Thio-Functionalization of Metal Organic Frameworks of Isonicotinate Ligands and Their Removal of Dye from Aqueous Solution
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<ol style="list-style-type: none">1. This manuscript is not showed the significant results. Some results are not given in manuscript.2. The title is mistyped of Thio. It should be thiol.3. The abstract is fine.4. The content and results are not related and correct.5. It is not scientifically correct.6. The reference should be added more.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<ol style="list-style-type: none">1. The grammar and spelling are seriously consideration.	
Optional/General comments	The characterizations should be provided more such as CHN of modified MOFs, etc. The results of adsorption application must be added as mentioned in abstract.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
