

Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_90571
Title of the Manuscript:	Synthetic Biology and International regulatory law
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Abstract: Please focus the abstract on your title and your topic. I would prefer to see some literatures regarding the necessity of international regulatory law and several ethical concerns regarding the development of synthetic biology.</p> <p>Introduction: Your introductory section is too lengthy. Please delete the first two paragraph since it is not important and related with the topics.</p> <p>Conclusion: Your last sentences "To address ethics concerns, which in most cases have been caused by misunderstanding of the technology, a public dialog on synthetic biology held by scientists and social experts will be helpful" is vague and not related to your topics. Please delete it.</p>	
Minor REVISION comments	Several images are not in the original size and resolution. Could you make greater resolution and original size of image? Such as Figure 2	
Optional/General comments	This is an interesting paper and the authors have collected a unique dataset based on the several literatures and knowledge using cutting edge methodology. The paper is generally well-written and well-structured.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
