<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<ol style="list-style-type: none"> The manuscript deals with a topical and relevant subject. As far as I'm concerned, the title of the manuscript is entirely related to the study being carried out. The abstract would be more accessible to the reader if it contained the objective of the work, the problem and the recommendations of the study. In my opinion, the manuscript has an appropriate structure. From a scientific point of view, the manuscript is fairly correct, although certain elements should be added to ensure that it complies better with standards (the initial characteristics of the soil and the organic products tested should be specified). Also, the statistical analyses should be more precise to increase the validity of the results. Yes. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	The level of language used in this manuscript makes it accessible to most people.	
<p>Optional/General comments</p>
