<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. The Introduction is very brief and does not adequately introduce the reader to the subject matter. However, it articulates the problem statement at the end of the introduction. 2. The Methodology section was presented clearly explaining the techniques used in data collection and the way data was analysed. 3. Some abbreviations are not written in full. 4. The Results were presented using 3 Tables and 1 Figure. However, the tables are too large and need to be summarized and reduced to smaller sizes for brevity and clarity. 5. The Discussion section is simple and straight forward, probably because the results obtained from the study were again simple and what were expected from such studies. Thus, there was not much to discuss. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<ol style="list-style-type: none"> 1. The Reference section, which includes few references has to be prepared as per the requirement of the journal. 	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. The study conducted is very simple and elementary and the author(s) may need to expand it more to include other important information, to make it publishable.
