

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_112195
Title of the Manuscript:	Improvement the bunch and oil yields of oil palm (<i>Elaeis guineensis</i> Jacq.) by introducing material of Yocoboué origin into the selection scheme in Côte d'Ivoire
Type of the Article	Research article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<ul style="list-style-type: none"> - The article titled "Improvement the bunch and oil yields of oil palm (<i>Elaeis guineensis</i> Jacq.) by introducing material of Yocoboué origin into the selection scheme in Côte d'Ivoire" is well written and focusses on a significant problem in oil palm crop. - The article is well-structured, and the flow of information is good. - The article is suitable for the publication in "Journal of Experimental Agriculture International" journal. <ol style="list-style-type: none"> 1. The experiment was carried out properly and work is also reflective in the manuscript. 2. Title of article is suitable 3. The abstract is comprehensive and well written. 4. Introduction part is good and informative about the oil palm crop characters, progenitors and hybrid progenies. 5. Material & methods part is descriptive about experimental material & conditions as well. 6. Results and discussion part is well written supported with diagrams, with very compatible and relevant discussions. 7. Conclusions are convening. 8. References section: References are relevant, recent and sufficient. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	yes	
<p>Optional/General comments</p>	Overall, this is a valuable contribution to the study of oil yield and yield components in Oil palm crop.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
