<p><b><u>Minor</u></b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes</p>	
<p><b><u>Optional/General</u></b> comments</p>	<p>In stating the problem, give more explanation why you chose children aged 3 to 8 years? That is, from childhood to school? Can tribal issues have a special effect on the nutrition and growth of this age group? Please correct the words in the conclusion section. An argent</p> <p>In the discussion section, it is not necessary to explain about micronutrients and it is more related to the statement of the problem.</p> <p>It is suggested: In the conclusion, the age group with more problems should be mentioned and the role of prevention in controlling nutrition related issues should be mentioned in these age groups. And mention the role of nutrients and micronutrients in controlling children's nutritional problems and mention the government's help in providing them.</p>
