Manuscript Number:	Ms_IJBCRR_110401
Title of the Manuscript:	The Association of Khat Chewing and Serum Uric Acid with Albuminuria Level in Type II Diabetes Mellitus in Ibb City, Yemen
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, the manuscript is highly important for the scientific community as it addresses a significant health concern.</p> <p>2. The title needs rewriting, and the suggested title is ((Impact of Khat Chewing on Serum Uric Acid and Albuminuria Levels in Yemeni Type II Diabetes Mellitus Patients)).</p> <p>3. In the abstract section, abbreviations such as (DM), (ESRD), and (WHO) should be avoided. The introduction section is where these abbreviations should first be introduced.</p> <p>4. Yes, the manuscript is well-organized with appropriate subsections.</p> <p>5. Yes</p> <p>6. References are sufficient and recent. No additional references are required.</p> <p>7. In Results and discussion section: the first paragraph ((The National Institute of Drug..... day, and is often a lifetime habit)) need to move to introduction section.</p> <p>8. In Results and discussion section: tables should be within text not at end of the manuscript.</p> <p>9. I prefer from the author to use the term ((type II diabetes mellites)) in all manuscript.</p> <p>10. Please check how to write the p value according to author guidelines.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The manuscript needs minor language edit.</p>	
<p>Optional/General comments</p>	<p>No</p>
